

ASTROLOGY- HOROSCOPE ANALYSIS -2 (Sri Akash Ambani)

Moon			Ketu
	D1		Lagna
Saturn			Jupiter, Venus
Rahu		Sun,Mars,Mercury	

Let us analyse the D1 chart and few observations are as follows.

Majority of planets are in eastern side of the horoscope (6 out of 9). Just like his father's horoscope he too has 2nd house filled with two benefics, which assures affluence all through his life. A tremendous raja yoga is also formed in 2nd house by lord of 9th and 4th. (Lakshmi stanam thrikonancha, Vishnu stanancha kendraha, thaya sambandha mathrena rajayogadikam bhaveth). This sloka assures combination will produce tremendous rajayoga.. This Yoga is also free from afflictions

Kemadruma yoga is deficiently destroying the chart prima facie, but as a silver lining, powerful Ahi yoga comes as a silver bullet. This yoga is bound to give him longevity and riches. However, he should be very careful in indulging others in his business as his business associates. Finally, two bright planetary energies are flowing in this chart, in opposite directions, so it would be better if he will concentrate in one single business rather than in involving in several businesses altogether.
